ATTENTION TO: OPERATIONS MANAGER

I'm responding to your advertisement for the Sales Supervisor (Print Department) job position. My expertise and experience will guarantee that the imperative delegated tasks required for such a position are executed diligently, effectively, and efficiently on a daily basis. I am a self-starter with proven leadership abilities, able to identify gaps in processes and initiate corrective actions, with excellent oral and written communication skills both in English and Spanish, and I have excellent project management skills.

I was a graduate student in Academic Arts and Science at Muffles College from 2002 to 2006. I possess a diverse set of skills and qualities by being the proud owner of an Associate's Degree in Computer Science from Muffles Junior College in 2008. I strongly know that I can be an asset to your firm with more than seventeen (17) years in the Information Technology industry. In my previous experiences from my past employment, I've developed skills in organization, communication, and time management — all of which are essential for the job position. I'm also comfortable with tools, common and intricate computer softwares. I'm always open to learning new systems as needed, being that I am an ingenious fast learner.

Before attending Muffles Junior College, I engaged myself as a part-time employee at a local computer repair company in Orange Walk Town. In the year 2008, I later became a full-time employee, and my newly acquired key duties and responsibilities were software programming, meeting with clients, troubleshooting hardware and software issues, assembling and installing new computer systems, onsite computer repair, networking, web design, and desktop publishing, known today as Graphic Design and Video Editing. I have developed and already possess the experience, knowledge, skills, qualities and qualifications that match the job description which can add value to your team.

It would be difficult to indicate every area of expertise; therefore, I would appreciate meeting with you to discuss my full qualifications for this position in greater detail. I may be contacted via my email at lorenzoslino@gmail.com or at the phone number 626-2267 (*N.B.: this is my mom's number who can relay the message to me*) to set up an appointment for an interview. I can also be contacted through WhatsApp ONLY at 620-1451.

Please find attached copies of my resume, along with professional references, and copies of my qualifications along with recent police record and social security information.

Warm Regards

Lorenzo Antonio Lino
(+501) 620 - 1451

Re: To Whom it may concern

Dear Sir/Madam,

I have great pleasure in recommending Mr. Lorenzo Lino in pursuit of the position he is seeking at your establishment. I have known him for the past 8 years in my capacity as Marketing Director for a Hotel Group and Mr. Lino as the Creative Designer and Web Developer for the group.

During these years of work relationship, I have found him to be a diligent and meticulous person. Mr. Lino is a responsible, capable, dedicated, innovative and respectful young man. His extreme interest to learn, persistent attitude to get his work done properly and passion for what he does, drives him to get deeply involve in his work to the maximum of his abilities.

If you would like to have additional information of Mr. Lino, please feel free to give me a call at +626-4413 or +822-3851.

Sincerely,

Ms. Lizbeth Casasola
Marketing Director
ViVA BELiZE Hotel Group
www.ViVABELiZE.COM
+501-626-4413

To Whom It May Concern

As the Internet Marketing Consultant for WSI and Geosystems, and the managing director of Integrated Computer Systems (ICS), I am honored to recommend Mr. Lorenzo Lino at your establishment. You may feel free to use my name and comments in any way you desire in your work with Mr. Lino.

In my opinion Mr. Lorenzo Lino brings a rare gift to the world of computer repairs, diagnostics, programming and web design and development and graphic design. Primarily he is very humble and unassuming, but he has a remarkable ability to orchestrate profoundly his competence and abilities. What is most profound about Mr. Lorenzo Lino is his ability to immediately adopt and ask for help when he is not sure about something. He stops at nothing and gets the job done the right way at the end of the day.

Mr. Lorenzo Lino has not only worked for me as the lead software programmer, but has also assisted me in strategizing the business for sustainability at the Corozal Branch for two years and a half. Overall he is a well-rounded technician with key strong points in software troubleshooting and diagnostics.

I do not think that anyone in the employee market is able to do what he does as well as he does it. I can tell you that any company and its department heads would be grateful to you if you could give them access to his talent.

Please call me if you need any further information.

Warm Regards,

Gilberto Carlos Perez
Internet Marketing Consultant
